MEETING OF AUGUST 16, 2007

Program

The meeting's guest speaker was Lion Ron Middleton of TDLC. Ron and his wife own and operate Lifestyle Medical Manufacturing. Ron's very interesting topic dealt with hearing loss and the impact of it on hearing impaired people. He informed us that today there are 22 million people in the United States that suffer from it and it is projected to reach 53 million in the next 12 years.

He talked about the social and economic impacts on the hearing impaired. He updated the club on the advances in hearing aid technology and where the technology is going in the future.

Ron has expressed interest in looking into LCI's Lions Affordable Hearing Aid Project (Lions AHAP) for the club. The board is interested in the possibility of becoming more involved in providing hearing services.

Thank you Ron for an interesting and informative program.
